St. Joseph's
Catholic Infant
& Junior Schools
Birtley

OUR MISSION

Let us build a house where hands will reach beyond the wood and stone, to heal and strengthen, serve and teach, and live the Word they've known.

Built of hopes and dreams and visions, rock of faith and vault of grace; here the love of Christ shall end divisions:

All are welcome in this place.

OUR VISION

Lord, in our daily lives, may we:

Love and serve like St. Joseph, care and protect like St. Joseph, work and teach like St. Joseph, show compassion and loyalty like St. Joseph, have trust and faith like St. Joseph.

We follow St. Joseph's virtues and remember our significance in God's world. Amen.

Statement of intent

St. Joseph's Catholic Infant and Junior Schools, Birtley takes the health and wellbeing of its pupils very seriously. As described in the Supporting Pupils with Medical Conditions Policy, the school aims to support pupils with physical disabilities and illnesses to enable them to have a full and rich academic life whilst at school.

The local governing committee recognises its duties and responsibilities in relation to the Equality Act 2010, which states that any pupil with an impairment affecting their ability to carry out normal day-to-day activities must not be discriminated against.

Pupils will always be treated with care, sensitivity and respect when intimate care is given, and no pupil will be left feeling embarrassed or as if they have created a problem.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Children and Families Act 2014
- Education Act 2011
- Health Act 2006
- Equality Act 2010
- DfE (2022) 'Keeping children safe in education'

This policy operates in conjunction with the following school policies:

- Health and Safety Policy
- Supporting Pupils with Medical Conditions Policy
- First Aid Policy
- Child Protection and Safeguarding Policy
- Staff Code of Conduct
- Whistleblowing Policy
- Administering Medication Policy

2. Definitions

For the purpose of this policy, **intimate care** is defined as any care which may involve the following:

- Washing
- Touching
- Carrying out an invasive procedure
- Changing a child who has soiled themselves
- Providing oral care
- Feeding
- Assisting in toilet issues
- Providing comfort to an upset or distressed pupil

Intimate care tasks are associated with bodily functions, body products and personal hygiene that demand direct or indirect contact with, or exposure of, the genitals.

Examples of intimate care include support with dressing and undressing (underwear), changing incontinence pads, nappies or medical bags such as colostomy bags, menstrual hygiene, helping someone use the toilet, or washing intimate parts of the body.

Pupils may be unable to meet their own care needs for a variety of reasons and will require regular support.

3. Health and safety

The Health and Safety Policy lays out specific requirements for cleaning and hygiene, including how to deal with spillages, vomit and other bodily fluids.

Any member of staff that is required to assist a pupil with changing a medical bag will be trained to do so and will carry out the procedure in accordance with the Supporting Pupils with Medical Conditions Policy.

Staff will wear disposable aprons and gloves while assisting a pupil in the toilet or while changing a nappy, incontinence pad or medical bag.

Soiled nappies, incontinence pads and medical bags will be securely wrapped and disposed of appropriately.

Where one pupil requires intimate care or toileting support, nappies, incontinence pads and medical bags will be disposed of in an ordinary bin, as per health and safety guidelines.

Where more than one pupil requires intimate care, nappies, incontinence pads and medical bags will be disposed as follows:

- **In Initial nappy bins.**

The changing area or toilet will be left clean. Hot water and soap will be available to wash hands. Paper towels will be available to dry hands.

4. Staff and facilities

Staff members who provide intimate care will be suitably trained, and will be made aware of what is considered good practice.

Any member of teaching or support staff may need administer intimate care – but this excludes the site manager or administration team.

Below is an equipment list which would typically support changing or intimate care for those who require it. Suitable equipment and facilities may be provided to assist pupils who need special arrangements following assessment from a physiotherapist or occupational therapist. This may include the following:

- Adjustable bed
- Changing mat
- Non-slip step
- Cupboard
- Adapted toilet seat or commode seat
- Hoist
- Swivel mat
- Disposable gloves/aprons
- Nappies, pads and medical bags
- Tissue rolls (for changing mat/cleansing)
- Supply of hot water
- Soap
- Barrier creams
- Antiseptic cleanser for staff
- Antiseptic cleanser for the changing bed/mat
- Clinical waste bag
- Spillage kit

The Infant school has an extended disabled toilet facilities with a washbasin which includes a changing area. At present, the Junior school does not have disabled toilet facilities. As such, mobile pupils will be changed while standing up. Pupils who are not mobile will be changed on a purpose-built changing bed or changing mat on the floor.

Staff will be supported to adapt their practice in relation to the needs of individual pupils, taking into account developmental changes such as the onset of puberty or menstruation. Should staff members have any questions regarding intimate care and changing, then they should contact the senior leadership team.

5. School responsibilities

Arrangements will be made with a multi-agency to discuss the personal care needs of any pupil prior to them attending the school.

Where possible, pupils who require intimate care will be involved in planning for their own healthcare needs wherever possible, with input from parents welcomed.

In liaison with the pupil and parents, an individual intimate care plan will be created to ensure that reasonable adjustments are made for any pupil with a health condition or disability e.g. catheterisation or irritable bowel disorder.

Regular consultations will be arranged with all parents and pupils regarding toilet facilities.

The privacy and dignity of any pupil who requires intimate care will be respected at all times. A qualified member of staff will change the pupil, or assist them in changing themselves if they become wet, or soil themselves. Any pupil with wet or soiled clothing will be assisted in cleaning themselves and will be given spare clothing, nappies, pads, etc., as provided by the parents.

Members of staff will react to accidents in a calm and sympathetic manner. Accurate records of times, staff, and any other details of incidents of intimate care will be kept in a Record of Intimate Care Intervention, and they will be stored in the disabled toilet.

Arrangements will be made for how often the pupil should be routinely changed if the pupil is in school for a full day, and the pupil will be changed by a designated member of staff. A minimum number of changes will be agreed.

The family's cultural practices will always be taken into account for cases of intimate care. Where possible, only same-sex intimate care will be carried out.

Parents will be contacted if the pupil refuses to be changed, or becomes distressed during the process.

Excellent standards of hygiene will be maintained at all times when carrying out intimate care.

6. Parental responsibilities

For those children with medical difficulties which impact on their intimate care needs, then parents will change their child, or assist them in going to the toilet, at the latest possible time before coming to school.

Parents will provide spare nappies, incontinence pads, medical bags, wet wipes and a change of clothing in case of accidents.

A copy of this policy will be read and signed by parents to ensure that they understand the policies and procedures surrounding intimate care.

Parents will inform the school should their child have any marks or rashes.

Parents will come to an agreement with staff (and multi-disciplinary team) in determining how often their child will need to be changed, and who will do the changing.

7. Safeguarding

Staff members working directly with children will receive safeguarding training as part of their mandatory induction, in line with the Child Protection and Safeguarding Policy.

Intimate care is a regulated activity; therefore, only members of staff who have an enhanced DBS certificate with a barred list check are permitted to undertake intimate care duties. Volunteers must not conduct intimate care duties.

Wherever possible, staff involved in intimate care will not be involved in the delivery of sex education to the pupils in their care as an extra safeguard to both staff and pupils involved.

Individual intimate care plans will be drawn up for pupils as appropriate to suit the circumstances of the pupil.

Each pupil's right to privacy will be respected. Careful consideration will be given to each pupil's situation to determine how many carers will need to be present when the pupil requires intimate care.

If any member of staff has concerns about physical changes to a pupil's presentation, such as marks or bruises, they will report the concerns to the DSL immediately.

Special consideration will be taken to ensure that bullying and teasing does not occur.

8. Swimming

Pupils in Year 2 and Key Stage 2 regularly participate in swimming lessons at Birtley Swimming Baths; during these lessons, pupils are entitled to privacy when changing; however, some pupils will need to be supervised during changing.

Parental consent will be obtained before assisting any pupils in changing clothing before and after swimming lessons.

Details of any additional arrangements will be recorded in the pupil's individual intimate care plan.

9. Offsite visits

Before offsite visits, including residential trips, the pupil's individual intimate plan will be amended to include procedures for intimate care whilst off the school premises.

Staff will apply all the procedures described in this policy during residential and off-site visits.

Meetings with pupils away from the school premises, where a chaperone is not present, will not be permitted, unless approval has been obtained by the headteacher.

Consent from a parent will be obtained and recorded prior to any offsite visit.

10. Toilet training

Members of staff providing care will inform another member of staff prior to taking a pupil to be changed or to use the toilet.

Where potties are used, they will be emptied immediately and cleaned with an anti-bacterial spray. The potty or toilet is checked to assess whether it is clean before use and toilet paper is well stocked.

Gloves and aprons will be worn before each change and the area should be prepared to ensure it is clean and suitable for use. Gloves must be worn at all times when changing nappies, and during any instances where the member of staff could come into contact with bodily fluids.

All pupils will be accompanied to the toilet and will be appropriately supervised and supported during the toilet training stage. If a pupil has a small toileting accident, it is likely that one member of staff will be sufficient to a) preserve the dignity of the child and b) support the child to change themselves, if appropriate. Staff will be sensitive and sympathetic when changing pupils and will not make negative facial expressions or negative comments. Pupils' efforts will be reinforced by praise where appropriate.

Staff are required to ensure that soiled/wet nappies are changed as soon as possible. Where pupils are left in soiled nappies and/or clothes, this will be dealt with in line with the school's Disciplinary Policy and Procedure.

Pupils will be encouraged to wash their hands with soap and warm water, with assistance provided where necessary, after each change or attempt to toilet.

Where pupils have significant additional needs and requirements e.g. hoists and catheterisation, then it would be appropriate for two members of staff to support their changing routine.

Changing should occur, as it would with any child, in the bathroom. However, it is vital that child feels a sense of respect and privacy at all times, and therefore, the door should remain shut, so that other children or adults do not unknowingly gaze into the area.

To build independence, pupils will be encouraged to replace their own clothes and flush the toilet, if they are capable of doing so.

Parents are consulted on the approach to toilet training their pupil to ensure there is consistency with the approach at home. Pupils' progress is discussed at handover with parents. If any pupil is struggling with toilet training techniques or has any issues, e.g. a rash, this will be discussed with the headteacher and the pupil's parents.

11. Unusual Changing Requirements or Stomach Bugs

Where a child has a one-off stomach bug (e.g. diarrhoea) and does not have a spare change or clothes, then school will provide them with spare clothes and contact parents or an emergency contact, as soon as possible to discuss the matter. Parents should not be requested to change their children in school, or else this would defy the Equality Act.

Should a child demonstrate significant changes to their toileting habits because of a change in their medication routine, then staff will work with parents and create an individual healthcare plan to support them.

12. Monitoring and review

This policy is reviewed every year by the headteacher.

All changes are communicated to relevant stakeholders.

The scheduled review date for this policy is September 2023.

Toilet Management Plan
