

NEWS FROM CARDINAL HUME

A MESSAGE FROM THE HEAD TEACHER

YEAR 6 OPEN EVENT AND ADMISSIONS FOR SEPTEMBER 2027

The energy, optimism and excitement at our recent Year 6 Open Evening for pupils hoping to join Cardinal Hume Catholic School in September 2027 was simply wonderful to experience. It was a delight to welcome so many families to our school, with packed presentations, busy department displays and countless conversations showcasing everything that makes our community so special.

The evening provided an opportunity for prospective students and their families to explore our curriculum, meet staff and current students, discover our extra-curricular offer, and gain a real sense of life at Cardinal Hume. We are grateful to everyone who attended and contributed to such a positive and vibrant atmosphere.

A number of families asked about our feeder school arrangements and how the Cardinal Hume Partnership of Schools works. We are fortunate to be part of a family of schools committed to providing an excellent, faith-fuelled and cohesive educational journey from Early Years right through to Sixth Form. Working closely together allows us to support pupils at every stage of their development, ensuring a smooth transition between phases and a shared commitment to nurturing the whole child.

Together, we share a commitment to academic excellence, strong pastoral care and the values of the Gospels. While these schools form our established partnership, we are also proud to welcome many students from a wide range of other primary schools each year. Ours is an inclusive community that welcomes children and families of all faiths and of no faith. As demand for places remains exceptionally high, families are encouraged to familiarise themselves with our admissions arrangements and oversubscription criteria, available in our school prospectus and on the school website. We look forward to welcoming the next generation of Cardinal Hume students as they begin the next stage of their educational journey.

Best wishes,
Mr Robson
